Saint Regis Mohawk Tribe

CANNABIS CONTROL PROGRAM

MEDIA RELEASE

Cannabis Product Testing

AKWESASNE, NY – (Kenténha | October 27, 2026) The Saint Regis Mohawk Tribal Cannabis Control Office is notifying the community of the results of August and September 2026 testing conducted in accordance with our Adult Use Cannabis Ordinance for cannabis product testing. Of the fifty-four (54) samples tested, forty-six (46) products have **PASSED** all limits set forth for contaminants. Eight (8) cannabis products tested positive in the Pesticide category of contaminants.

We are pleased with all the businesses who participated in the testing and applaud their commitment to the safety of the community. They are as follows:

A Team Products	Higher Ground Cannabis Co.	Prime Cannabis Co.
Another Damn Pot Store	Lawless & Co.	Sovereign Akwesasne
Bankside Cultivation	Marijuana World	Sovereign Fort Covington
Budders Cannabis Store	NY Venture Capital	Wacky Tobacky
Dank Bank	Otsi:re Cultivation	Weedway
East End Cannabis Co.	Otsi:re Processing	World Famous Blaze

We have worked with the specific businesses to ensure contaminated products were removed from the shelves, so not to be made available for consumption.

Many of these products can be found in several of Akwesasne's cannabis businesses, therefore, it is advised that the public be responsible and shop with care when choosing products from businesses that do not participate in regulated licensed laboratory testing and are transparent in making results public knowledge.

For more information and to explore the complete list of licensed retailers, and results please visit www.srmt-nsn.gov/cannabis

The Saint Regis Mohawk Tribe's Cannabis Control Office is committed to fostering a compliant and thriving cannabis industry within the Tribe's jurisdiction. The office works closely with licensed retailers to ensure adherence to tribal regulations and promotes community awareness about the positive impact of supporting tribally licensed businesses.
