## SCOPE OF REQUEST

### **I. Project Goal**

The Saint Regis Mohawk Tribe's Environment Division seeks quotes from vendors for a new Heavy Duty Garbage Truck based on the required specifications.

### **II. Technical Specifications:**

#### **1. General Description:**

- a. Current Production Year
- b. Does not exceed length, width, and height limits as determined by the applicable State and Federal regulations.
- c. The complete unit shall meet Federal and State of New York: Department of Transportation and OSHA safety regulations.
- d. The truck must be complete, serviced, ready for work, and include standard equipment.
- e. Designed to lift/dump our existing six (6) cubic yard dumpsters.
- f. The truck will be equipped with two (2) roll-off covered containers.
- g. Truck will also utilize a hook-lift roll-off system.

#### **2. Vehicle Description:**

- a. Chassis for Refuse Truck – Similar in design to a Freightliner M2 106 Conventional Chassis – GVWR of less than 26,000 pounds. Alternatives may be accepted if incompatible with requirements stated in this specification.
- b. Engine requirements of 260 – 350 hp, 8 cylinder or larger, diesel fuel, with exhaust emission system to reduce NOx, air brake package and automatic transmission.
- c. Standard cab left hand drive. Equipped with a hook-lift system (multi-lift XR5XL or equivalent) to transport roll-off containers. A hydraulic side arm system shall also be provided for lifting the existing HL6 and HL60/40 containers.
- d. The following equipment is requested: power steering, air-conditioned cab, AM/FM radio and power windows and doors. Bluetooth and cruise control are not necessary but would be accepted as standard equipment. A back-up camera system must be included at a minimum, but additional cameras would be preferred for safety.

#### **3. Hook-Lift and Roll-Off Containers:**

- a. The hook-lift system shall be compatible with existing 14-foot Recycling Containers purchased from Bucks Fabricating.
- b. The roll-off containers provided shall be of durable construction and designed to withstand the impact of municipal solid waste, construction debris or bulky material being dropped into them.
- c. The truck shall be provided with the maximum size (loaded) roll-off containers appropriate for the vehicle design.
- d. The truck and hook-lift system shall be designed to lift and transport all loads safely and the container dimensions must meet all State, Federal, and Department of Transportation Rules and Regulations.
